Specimens received 10/16/58:

"Mr. Rothschild, You have..." and ending on the second page
"...answers."

Result of examination:

The questioned writing on Q2 was compared with the Anonymous Letter File and with the writings received in the Bureau in recent explosion cases without effecting an identification.

The signatures on the fingerprint cards of GEORGE MICHAEL BRIGHT, #FBI-922466C, are not sufficiently comparable with the writing on Q2 to permit a definite conclusion to be reached. However, some similarities were noted in the writing on Q2 and the signatures on the fingerprint cards of BRIGHT.

Q2 is returned herewith to Atlanta. Photographs are retained.

Note: A list of ninety-three explosion cases occurring since January 1957, was provided by SA F. Freund, Division Six. A listing of explosion cases was furnished to Records Branch with the request that a review of abstracts be made and where writings were found, the cases be furnished to the Laboratory for comparison purposes.

On 10/17/58, SA Freund conducted an additional survey in Division Six for other explosion cases which may have come to the attention of the supervisors in that division. The Laboratory compared the writing submitted by Atlanta with the writings in the cases furnished as mentioned above.

Mandating Review (NLE 89-113)

This is to advise you of current developments concerning the bombing of the Shrew Benevolent Congregation in Atlanta, Georgia. (u)

Twenty sticks of dynamite, together with two detonating caps and a length of fuse, have been found in an open area north of Atlanta. The dynamite is leaking nitroglycerin and is considered to be in a dangerous condition, but it can be handled if it is treated carefully. It has been moved to a powder magazine and one of our technical experts flew to Atlanta early this morning to examine it for latent fingerprints. Two cases of this type of dynamite were stolen from a powder magazine in Atlanta about two months ago. (u)

It is interesting to note that thirty sticks of this same type of dynamite were found on the steps of a synagogue in Gastonia, North Carolina, on February 9, 1958. Fifty-four sticks of similar dynamite were found at the Temple Beth El Synagogue, Birmingham, Alabama, on April 28, 1958. Similar dynamite was also used in the attempted bombing of a synagogue in Charlotte, North Carolina, on November 19, 1957. (u)

Enclosed herewith is a two page handwritten note in pencil appearing on two pieces of plain white paper measuring approximately six by four inches. This note is addressed to "Mr. ROTHSCHILD" and bears the autographic initials of investigating officers on the reverse side thereof.

This note was obtained in the search of the room of GEORGE MICHAEL BRIGHT, suspect in this case, located at 525 Page Avenue, Atlanta, Georgia, conducted by investigating officers on October 14, 1958.

The Laboratory is requested to make an analysis of the enclosed note, obtain photographic copies of same if desired, and check the handwriting appearing thereon against handwriting furnished to the Bureau in any explosion case investigated in the United States by the Bureau or any police agency. Atlanta would appreciate the original note being returned to this Division as quickly as possible as same may be required in view of the rapid developments in this case.

Honorable Dwight D. Eisenhower
The President

My dear Mr. President:

In line with my conversation with
Mr. James C. Hagerty on October 12, 1958, I want
to furnish you with further developments regarding
the dynamiting of the Hebrew Benevolent Congregation,
1589 Peachtree Street, Atlanta, Georgia.

The Special Agent in Charge of our Atlanta
Office remains on the scene personally directing
Agents of this Bureau who are engaged in assisting
local authorities. A check has been conducted of
service stations, garages, cafes, motels and hotels
in Atlanta which are open after midnight in an effort
to develop any additional pertinent data concerning
the bombing. An investigative lead developed from
this check is receiving expeditious attention.

Extensive neighborhood inquiries conducted
in the vicinity of the Hebrew Benevolent Congregation
reflected that at 1:00 a.m., October 12, 1958, an
unidentified Negro made inquiry concerning the location
of the Temple at a service station located in the
immediate vicinity of the Temple. According to the
operator of this service station, this individual was
driving a 1956 Pontiac automobile bearing a South Carolina
license tag superimposed on a Georgia license tag. The
operator of the service station advised that a photograph
of an individual having a lengthy criminal record closely
resembled the unidentified Negro. However, investigation
reflected that this individual is currently confined in

the Stonewall Public Works Camp, Fulton County, Georgia. Efforts to locate the unidentified Negro who made inquiries concerning the location of the Temple as well as neighborhood inquiries in the vicinity of the Temple are continuing.

Inquiries have been conducted both in and out of the State of Georgia to determine the whereabouts during the early morning hours of October 12, 1958, of numerous racial extremists who are logical suspects in the bombing. Such investigation has determined the whereabouts of many of these individuals during the pertinent period, thereby eliminating them as suspects. Such investigation reflected that several of these suspects were absent from their regular places of residence during the pertinent period and investigation concerning these individuals is being intensified.

Immediately upon their arrival in Atlanta on the afternoon of October 12, 1958, technical experts of this Bureau, with the assistance of investigative personnel of our Atlanta Office, conducted a thorough search at the scene of the explosion. Through the use of floodlights and an emergency generator, they continued to search throughout the night, and after daylight on the morning of October 13, 1958, they rechecked the scene of the explosion and conducted a thorough search of the entire area. Nothing of significance which would indicate the specific type of explosive used or the method of detonation was found. The examination did reflect that a high order type of explosive was utilized and that the bomb was of such size that it destroyed itself. No fragments of explosive materials, fuses, detonators, or timing devices were located. The examination revealed that the explosive charge was well-placed at the base of a pillar where it achieved maximum explosive effect and the only materials recovered of possible significance were fragments from the building itself which appear to contain residues. This material will be subjected to appropriate examination by the FBI Laboratory.

Honorable Dwight D. Eisenhower

Since technical experts no longer require control of the premises, the Temple has been released to members of the congregation. They are in the process of attempting to place the premises in usable condition.

In connection with the threat received by [redacted] the wife of Rabbi Jacob Rothschild, to the effect that the Rothschild residence would be bombed, an officer of the Atlanta Police Department was assigned to afford protection to Rabbi and [redacted] during the night of October 12, 1958. Rabbi and [redacted] stayed at their residence but their children stayed elsewhere. No incidents occurred.

b6
b7c

I thought you would also be interested in knowing that the Special Agent in Charge of our Springfield Office is on the scene of the bombing of the Jewish Temple Anshai-Emeth at Peoria, Illinois, actively assisting local authorities in every possible way and taking charge of all investigative efforts that may indicate any Federal violation. We have extended the FBI's full laboratory and identification facilities. We are further assisting local law enforcement authorities by handling out-of-state leads making available to them every possible cooperative service of the FBI.

An explosion occurred in the basement stair well of the Temple Anshai-Emeth at Peoria at approximately 12:30 a.m. today. Information so far received indicates that a two and one-half inch pipe bomb six to eight inches long was detonated by use of a dynamite fuse. There were no personal injuries as the building was unoccupied at the time of the explosion. Our Special Agents have interviewed Rabbi Joseph L. Ginsberg who has advised six or seven windows at the rear of the Temple have been damaged and he estimates that the damage is approximately fifty to seventy-five dollars.

I talked with SAC N. R. Johnson, Atlanta, concerning the statement made by Detective Sergeant of the Atlanta Police Department.

Ga

I gave Johnson the benefit of the exact language of the news ticker statement which clearly indicates the sergeant is almost giving a blow-by-blow description of information which he has obtained. Johnson agreed that such comment by representatives of the police department is not going to assist in any way in bringing about an early solution to this situation. He recognized that the disclosure of information which may prove to be pertinent would immediately alert individuals who might possess information concerning this matter and would drive them off in the event they desire to furnish helpful leads. It would also have the effect of putting on notice those who might be responsible and lead to their going underground or otherwise cloaking their activities in such a manner as to make the ultimate solution more difficult.

Recognizing this, Johnson is going to tactfully talk with the Chief of Police. He knows him well and states he believes he can approach this problem under proper circumstances and in a proper manner. I went over in detail the objectives of such a contact and the fact that under no circumstances should anything be said or done in this contact to leave the impression that we were suggesting or telling the Chief how to handle such a situation.

Johnson indicated he believed he could handle this. He certainly thought it advisable to do so and hoped it would bring about Herb, Atlanta, Ga. results. He did wish to point out he could talk to Chief of Police Jenkins and that he has been most cooperative. Unfortunately, the policy of the police department is such that the police officers are not under any press restrictions. He said the Atlanta papers, the Atlanta Journal and the Atlanta Constitution, although under one ownership, are highly competitive in their operations for stories. who is one of the

top news reporters, has free access to the police department. He practically lives with the police officers when he has to and runs around in their cars when they get out on these cases. It is the practice of the police from Private up to give whatever information they may desire to the reporters and it is the practice of the reporters to make direct approach to the various police officers. This press policy is influenced by practice over the years. It obviously is an unsatisfactory situation. In order to fully explore this matter so that nothing undesirable will develop, other matters were discussed and it is obvious we will have to be most circumspect in handling this situation and consequently the matter was discussed in detail with Johnson so that he would adhere to the procedure outlined by the Director and so there would be no misunderstanding as to our position; namely, that this would have to be handled tactfully, if it couldn't, I didn't want it handled. However, if it could be tactfully handled, then under the arrangement there was to be nothing said nor done which would indicate that we were suggesting, telling, implying, or otherwise trying to guide Jenkins in his thinking. Johnson states he will be able to handle it on this basis.

The position which Johnson must take in this matter is further justified by the fact that any order or instruction issued by Chief Jenkins at this time which would indicate Jenkins is trying to keep the press out or muffle his police officers, would probably give rise to criticism of him and then put him in a position where he would try to wiggle out. This would be particularly undesirable if in some way any reference was made to the FBI. Further, the television, radio and wire service coverage is extensive and any attempt to muffle this if improperly handled, would also obviously be undesirable. Johnson is fully aware of these possibilities and is acting accordingly.

With reference to the news item indicating the Detective Sergeant had obtained certain information, it was pointed out to Johnson that although we were fully aware of all of the developments in this connection and have been in on the interviews of other persons, the question was raised as to why we did not participate in the statement which was obtained from the individual referred to in the news item who is unnamed. Johnson states in this connection the Agents have

Memorandum for the Director

been working closely with the police. When this individual was interviewed on October 12, after having been picked up by the police, Agents were present at the interview at that time. Following this, the suspect was detained by the local police and held in the jail over night. The following day, which was yesterday, two police officers who had not previously interviewed the suspect, started talking with him in the afternoon. These officers did not have any previous contact with the suspect. They took him out of the police department and after some time brought him back. What they did with him during this period of absence is not known. However, it has been reported they were able to get him to be cooperative and make certain admissions and he was thereafter brought back to the jail.

Agent [] who was at the jail at the time for the purpose of determining the developments as the result of the above interview, was advised by Sergeant [] that the suspect was willing to do a little talking and consequently the officers planned to talk with him the following day which would have been this morning. The Agent suggested to the police officers it might be a good idea to get this suspect to reduce what he had said to writing because tomorrow he may be in a different state of mind. The Agent stated he was aware of the original interview with this suspect and knew that we participated in it but he did not participate in the taking of the signed statement.

10/14/55 Johnson
we should have insisted on taking it then
Johnson states he raised a question concerning this, recognizing there was a possibility that such a statement taken under the circumstances might not be admissible; nevertheless, he inquired as to why the Agent was not present during the taking of the statement. Johnson states Superintendent of Detectives [] indicated the police officers apparently were able to get him to talk and the presence of an additional officer might not be desirable. The Agent was advised he would immediately receive a copy of the statement when it was completed. The Agent waited for the results in the office of Chief of Police Herb Jenkins. The statement was brought in by the police officer, handed to Jenkins, and Jenkins, without reading the statement of which he was furnished several copies, immediately tore off a copy and handed it to Agent []

I advised Johnson that I recognized we were in on the first interview and had interviewed a number of persons who had been picked up

Memorandum for the Director

by the police and that every cooperation was being extended to us; that I was aware of his concern in not participating in any procedure which might be questionable, but that in view of the lack of control over what may be said by the police department personnel who apparently are not under any strict control in connection with press relations, it was doubly necessary to watch this situation very carefully. We didn't want to have our chances of breaking this case further handicapped by loose statements and disclosure of information which may prove pertinent. The fact that Herb Jenkins is most cooperative and would personally unquestionably extend himself in our behalf is commendable, but if the police officers make these comments and they prove to be detrimental we will, of course, suffer in the long run. Johnson indicated he was most aware of this and was trying to make every effort to handle the situation along these lines.

Johnson indicated George Bright seems to be an excellent suspect in this matter. He said he is driving a car which might closely fit the description of the car which was seen in the vicinity by a cab driver. Bright has been uncooperative. He has a segregationist background. He is presently being held by the local police on a charge of vagrancy. His alibi witness, his girl friend, was also locked up.

The Bureau has been furnishing reports to the President in connection with the above-captioned matter for the past several days. The President leaves Washington on Friday, October 17, 1958, for a trip to the West Coast and is returning to Washington on the early morning of October 23. (A detailed itinerary of this trip is enclosed.)

On October 15, 1958, when [] of the Liaison Section handed today's report to Mr. James Hagerty, Press Secretary to the President, [] mentioned the Presidential trip and asked Mr. Hagerty for his desires concerning keeping the President advised of instant matter during his absence from Washington. On the afternoon of October 15, at Mr. Hagerty's request, [] conferred with Mr. Hagerty and General Andrew J. Goodpaster, the White House Staff Secretary.

[] was advised by these gentlemen that during the President's absence from Washington, the reports should continue to be addressed to the President and should be handed directly to General Goodpaster who will remain in Washington. Mr. Hagerty mentioned that if the case breaks and arrests are made, the Director may desire to telephone this information to the White House and if this is the case, the Director should feel free to contact General Goodpaster who will immediately relay it on to the President wherever he may be.

SA M. E. Williams of the Laboratory called me at 10 a.m. from Atlanta. He advised that immediately upon arriving in Atlanta yesterday afternoon, with a crew of eight Agents and a fingerprint man, a thorough search was conducted at the scene of the explosion. With the aid of an emergency generator and floodlights, they continued the search all night and after daylight this morning they rechecked the explosion scene and conducted a thorough crime scene search of the entire area. He said they found practically nothing of an evidentiary nature; that the bomb was obviously of such size that it destroyed itself; and there were no fragments of explosive materials, fuses, detonators or timing devices.

Williams said that the violence of the explosion definitely indicated a high explosive, such as dyanamite, and the scene is typical of a dynamite explosion. He said because of a number of factors, it is difficult to make an accurate estimate of the amount of dynamite; that he feels there were at least 20 sticks and probably more. He said the charge had been very well placed at the base of a pillar in order to do the most damage and that the only material found of any possible significance were fragments from the building which appear to have some residues, but this was of doubtful value. However, he has retained this material for such examination as can be conducted in the Laboratory.

Williams said that while they had completed the search and had made photographs, they were rechecking everything to make sure that no possibility is overlooked.

Connect N. Y. Hoods To Temple Bombing

By DAVID BURK

Atlanta, Oct. 15 (Special).—The dynamiting of a synagogue here Sunday may have been done by "New York boys" hired by a high-up anti-Semitic "fat cat," authorities said today.

FBI agents in New York already are following up leads, City Police Chief Herbert Jenkins told THE NEWS.

The scope of the anti-Semitic plot behind the \$100,000 dynamiting—at first thought to have been the work of local hoodlums—has broadened considerably.

Swastikas Found in Home

Swastika symbols found in the home of one suspect indicated that the same hate groups which operated here 10 years ago are again active and police are try-

ing to locate Homer L. Loomis, once listed in the New York Social Register. Police said he was one of the leaders at that time.

The "fat cat"—unidentified—was said by police to have once been prominent in public affairs. His name has turned up repeatedly in the dynamiting investigation.

Chief Jenkins made it clear that whatever is behind the bombings, it has far-reaching ramifications. "Interrogations and searches," he said, "seem to point to an organization spread

through several states. A lawyer we were looking for here has turned up in Boston.

Tracing a Connection

"We also seem to be tracing a connection between the bombing here and similar bombings in Florida, Alabama, Mississippi and Tennessee."

Five local men held on suspicion last night are being subjected to what the FBI termed "rigorous questioning."

Working closely with the G-men, the Atlanta city police force today threw all 100 of its detectives into the hunt for other suspects and evidence. Jenkins said all routine investigations have been set aside temporarily and his detectives are being recalled only to handle fresh crimes.

2 Letters Give Clues

Three homes in neighboring DeKalb County were being searched for explosives and tools that

might have been used in Sunday's blast.

These and dozens of other searches were triggered by the discovery of two letters in the homes of two of the men already arrested, crippled salesman Wallace H. Allen, 32, and George Bright, both known extremist anti-Semites.

The letters and admissions to investigators have tied these men in with an anti-Jewish group that met here a week ago Monday to plot the bombing of Atlanta's temple.

One letter, found in a raid on Bright's home, was a penciled draft. It warned Atlanta's Jewish community: "You will soon witness a terrifying experience."

Officers could not say if any letters based on this draft actually had been mailed to anyone.

The other letter, found at Allen's \$30,000 home, was said by

Connect N.Y. Hoods to Bombing

(Continued from page 3)

Detective Capt. R. E. Little to show that the Atlanta group was "directly connected, probably financed and directed from outside the state."

"God Bless Him"

It said in part: "Thanks to one man, one 'fat cat' (financier), we can now do the things we've been planning to do. The fat cat has put his dollars where his mouth is—God bless him."

Referring to "a big blast," it added: "The boys from New York will be coming down. There's no guts in the local citizens."

Allen was arrested last night after an eight-hour stakeout at his home. Police finally got a search warrant and went in for him.

He told police: "If it's the bombing you're interested in, I don't know a thing about it. I've never even seen a stick of dynamite."

Police said, however, that Allen, a greeting and calling card salesman, had swastika drawings and lurid anti-Semitic literature around his home. Formerly from Allendale, Fla., where he had a police record, he has been here at least since 1951, when he was picked up for larceny.

Others arrested as suspects were Luther King Corley, 26, Robert A. Bowling, 25, and Kenneth C. Griffin, 32. All are from Atlanta.

A sixth man, whose name was

not divulged, was being held for questioning after he "spouted" off to a cellmate about the dynamiting. He was being held in jail as a drunk. He said he was from Detroit.

Chief Jenkins said the questioning produced a number of names, particularly those who had been associated with the Columbians, Inc., an anti-Negro, anti-Semitic outfit. Its members wore storm trooper uniforms with lightning shoulder patches.

Believed Smashed

It was believed the Columbians had been smashed when leaders were convicted on riot charges in 1946 and 1947. Police are anxious to know the whereabouts of both Loomis and the former president of the Columbians, Emory C. Burke.

NAACP Says U.S. Must Curb Violence

The National Association for the Advancement of Colored People, commenting yesterday on the bombings, said that the federal government "bears a major responsibility" to press efforts to curb such acts of violence.

It commended President Eisenhower for promptly ordering the FBI into the Atlanta case.

"There is also need," the organization said, "for enactment of a measure, introduced in the 85th Congress, extending federal

control over the possession, transportation and use of dangerous explosives."

Blames Public Officials

Charles S. Zimmerman, vice president of the International Ladies Garment Workers and chairman of the National Trade Union Council for Human Rights of the Jewish Labor Committee, blamed some public officials for helping create an atmosphere leading to violence.

"When Governors, U. S. Senators, members of the House of Representatives and local officials inflame and incite communities against law and order, it is axiomatic that violence must be the result," Zimmerman declared.

He urged Democratic and Republican leaders in Congress to "launch an immediate investigation of violence perpetrated by hate groups against Jews, Negroes and others" and of the alleged incitement by public officials.

Tallahassee, Fla., Oct. 15 (UPI).

—Gov. Leroy Collins, alarmed by terrorist bombings in Florida and other parts of the South, called today on every citizen to report the use of explosives, "no matter how insignificant." Collins said even the smallest piece of information might provide a major tlein that would permit law enforcement officers to prevent a disaster.

For record purposes, [redacted] ^{DCI} of United Press International telephoned at 2:10 p.m. today and Wick talked with her. She made reference to the Associated Press story by [redacted] today to the effect evidence from the Atlanta and Clinton bombings is being forwarded to the FBI Laboratory. [redacted] piece, she said, ^{SOME} indicated we have physical evidence on the Clinton case but momentarily expected in the Atlanta case. Her question: "Has the FBI Laboratory received evidence in the Atlanta bombing case?"

After checking with you and determining from ASAC [redacted] of the Atlanta Office that the Atlanta police have been advised of the results obtained in the Laboratory analysis of a bag figuring in this case, I had Wick inform [redacted] we have received evidence and the results have been made known to local authorities.

She asked if several pieces of evidence had been received from the Atlanta bombing and Wick told her, of course, that as physical evidence is developed it will be analyzed and the results furnished to the local authorities. Wick reiterated that we are being of all possible assistance in this matter.

INFORMATION CONCERNING

The five men who have been charged with the dynamiting of the Hebrew Benevolent Congregation in Atlanta, Georgia, were denied bond at a hearing on October 22, 1958. The defense filed a motion for an early trial but it is doubtful if the court calendar will permit trial of the case until the latter part of December.

The dynamite which was found north of Atlanta has been destroyed because of its dangerous condition. The examination of the dynamite failed to produce any latent fingerprints.

We are continuing to provide protection for Chief Justice Warren and Justice Frankfurter. Nothing of significance has occurred since the threatening telephone call which was made on October 17, 1958.

In connection with the bombing of the Jewish Temple Anshai-Emeth, Peoria, Illinois, which occurred on October 14, 1958, it has been alleged that the bomb was placed by three unidentified college boys. We are thoroughly exploring this possibility and we are also continuing other extensive investigation.

A sixteen-year-old student has admitted making two of the recent telephone calls alleging that bombs had been placed in Peoria high schools. He implicates two other sixteen-year-old boys as having made similar calls. The three boys deny any knowledge of the Temple bombing.

My dear Mr. President:

We are continuing our intensive investigation into the dynamiting of the Hebrew Benevolent Congregation in Atlanta, Georgia. An additional polygraph examination has been given without producing positive results, and we are conducting widespread background investigation of all suspects and many of their associates. (u)

The assistant foreman of the grand jury which returned the indictments in this case received an anonymous telephone call from a man who stated, "This is the Confederate Underground. We are going to kill everyone of you men who put those innocent men in jail. You have seven minutes to get out of your house." No actual violence was attempted. A number of other threatening telephone calls have been received by other individuals in Atlanta during the last few days. Identification of the callers is being attempted through the use of voice recordings which have been obtained from suspects. (u)

On the evening of October 17, 1958, our New York Office received a telephone call from an anonymous man who stated, "The Supreme Court is set to be bombed tonight. Chief Justices Frankfurter and Warren marked for death. This is the Confederate Underground." The Marshal of the Supreme Court was notified at once and I immediately made arrangements to

afford protection to Chief Justice Warren and Justice Frankfurter. We have Agents in a room adjoining the apartment of the Chief Justice at the Sheraton Park Hotel Annex and additional Agents are on twenty-four hour duty in the neighborhood of the hotel. Other Agents are stationed in the vicinity of Justice Frankfurter's home. Discreet surveillances are maintained when they leave their homes and arrangements have been made for Agents to be readily available to the Justices when they are in the Supreme Court building. (u)

We are also investigating an anonymous letter which was mailed to Chief Justice Warren from Columbus, Georgia, on October 1, 1958. This letter referred to the integration rulings of the Supreme Court, threatened death to Chief Justice Warren, and implied that one of his daughters might be harmed. (u)

At approximately 11:00 a.m., October 19, 1958, the Church Secretary of the Arlington Unitarian Church, Arlington, Virginia, received a telephone call from an anonymous man to the effect that a bomb had been planted in the church and would explode in about one hour. The building was thoroughly searched and no evidence of a bomb was found. We have established close liaison with local authorities and are following this matter closely. (u)

With regard to the bombing of the Jewish Temple Anshai-Emeth, Peoria, Illinois, on October 14, 1958, we are continuing our efforts to trace the components used to manufacture the bomb. (u)

Against Communism, called Mr. DeLoach again on 10/14/58. [redacted] called on 10/13/58 and inquired as to information concerning the Atlanta bombing. He was told that we could not give out any other facts than what had been given in the original White House press release. On 10/14/58, [redacted] wanted to know if we had any facts concerning the Peoria, Illinois, bombing. He was told that we could make no comment at this time other than to state that we were running down out-of-state leads for the police, that the facilities of our Laboratory and Identification Divisions had been made available, and that the Special Agent in Charge of our Springfield Office had been at the scene of the crime and was keeping in close touch with the police so that every possible assistance could be given.

[redacted] wanted to know if the Director could meet with officials of his organization from New York in the near future. He was told that the Director's schedule was extremely tight at this time in view of the two mentioned cases and other cases of great magnitude. He then wanted to know if DeLoach could meet with these people. He was told that we would, of course, be happy to see his group at any time, but that there was no information available that we could give them at this time in view of the pending nature of the cases. He was asked if they had been in contact with the police in Atlanta and Peoria. He replied in the negative and stated they preferred to keep in touch with the FBI regarding these matters.

[redacted] was told that we, of course, keep in touch with the American Jewish Committee Against Communism. [redacted] and has been very cooperative. [redacted] stated that [redacted] might drop down to see us in the near future. He was advised that [redacted] would be very welcome.

I will have DeLoach see [redacted] if he comes to town. There will be no difficulty involved inasmuch as [redacted] is very friendly and cooperative.

ACTION: For record purposes.

We are continuing to afford protection for Chief Justice Warren and Justice Frankfurter. Nothing of significance has occurred.

Concerning the bombing of the Jewish Temple Anshai-Emeth in Peoria, Illinois, our checking of black powder sales has identified a man who purchased twenty-five pounds of black powder and one hundred feet of dynamite fuse last June. His anticipated need for the powder did not materialize and he advised that it was still in the basement of his home. Upon examination it was found that about twenty pounds of the powder and about sixty-five feet of the fuse are missing. We are vigorously investigating this aspect.

The Attorney General.

On October 23, 1958, a bomb consisting of a shampoo jar filled with BB shot and what appears to be a small amount of powder was found on a stairway in Peoria Central High School. Flashlight batteries and a condenser were taped to the top of the jar. Under it was a note reading, "Bomb. Now U find the other one by three. No joke." The building was evacuated and searched but no other bomb was found. A preliminary examination of the bomb indicates that it was not capable of exploding.

This information has also been furnished to the President.

Honorable Dwight D. Eisenhower
The President
The White House
Washington, D. C.

My dear Mr. President:

The five men who have been charged with the dynamiting of the Hebrew Benevolent Congregation in Atlanta, Georgia, were denied bond at a hearing on October 22, 1958. The defense filed a motion for an early trial but it is doubtful if the court calendar will permit trial of the case until the latter part of December.

The dynamite which was found north of Atlanta has been destroyed because of its dangerous condition. The examination of the dynamite failed to produce any latent fingerprints.

We are continuing to provide protection for Chief Justice Warren and Justice Frankfurter. Nothing of significance has occurred since the threatening telephone call which was made on October 17, 1958.

In connection with the bombing of the Jewish Temple Anshai-Emeth, Peoria, Illinois, which occurred on October 14, 1958, it has been alleged that the bomb was placed by three unidentified college boys. We are thoroughly exploring this possibility and we are also continuing other extensive investigation.

Honorable Dwight D. Eisenhower

A [] year-old student has admitted making two of the recent telephone calls alleging that bombs had been placed in Peoria high schools. He implicates two other [] year-old boys as having made similar calls. The three boys deny any knowledge of the Temple bombing.

Additional hoax telephone calls were made on October 22, 1958, alleging that bombings would occur at two Peoria high schools. Local authorities did not follow their former procedure of evacuating the buildings.

A press announcement will be made today concerning special law enforcement conferences to be held during November and December. At these conferences the FBI will outline to state and local law enforcement officials the cooperative services of the FBI which are available to them in connection with actual or threatened bombings of educational and religious institutions.

Sincerely yours,

AT 62-1670

explosives of the type of material used in packing
explosives present.

It is requested that item 12 be examined to
determine if it could be some type of detonator or firing
pin or if it could be used as a detonator or firing pin
in setting off explosives.

It is requested that items 11 and 12 be returned
while items 1 through 10 may be destroyed if they do not

My dear Mr. President:

Bombing of

In connection with the dynamiting of
the Hebrew Benevolent Congregation, 1589 Peachtree
Street, Atlanta, Georgia, on October 12, 1958, writs
of habeas corpus were filed yesterday on behalf of
Wallace Allen, George Michael Bright, Robert Bowling,
[redacted] and [redacted]

Hearings concerning these writs are set
for 2:00 p.m. today. However, we have discussed
this case in full detail with local authorities
and presentment will be made to the Fulton County
Grand Jury at 10:00 a.m. today. It is believed
that the available evidence is sufficient to obtain
indictments against Wallace Allen, George Michael
Bright, [redacted] Robert Bowling, and
[redacted] The evidence against
[redacted] is considered insufficient.

Robert Bowling has now refused to submit
to a polygraph examination and [redacted]
will not be examined since it has been determined

[redacted] Emory Burke was examined with the
polygraph yesterday and no reactions were observed
which would indicate that he was involved in the
bombing or that he is withholding information

Honorable Dwight D. Eisenhower

Our New York Office has developed information indicating that [redacted] who is being sought for questioning in connection with this case and who is reported to have once been listed in the New York Social Register, resides in [redacted] and travels extensively in his work as a [redacted] (u)

N.Y.

Lincoln Rockwell, upon interview by our Agents, displayed a letter written by Wallace Allen last July in which Allen questioned the propriety of picketing synagogues and Rockwell offered this as proof that Allen would not be a party to such a bombing. He said that he would use this letter in Allen's defense. Rockwell also stated that he feels one of those who have been arrested in Atlanta might be capable of being implicated in the bombing but he refused to identify this person for the alleged reason that the individual is an immature boy who would be "persecuted" by the Atlanta police. (u)

Ga.

Rockwell related that [redacted] of Baltimore finances anti-Jewish activities on the part of both Rockwell and Allen. He disclaimed any knowledge of this or any other bombing and denied that [redacted] had financed the bombing. Rockwell said that [redacted] has stated many times that he would like to "get rid of the Jews." (u)

Md.

[redacted] has been interviewed and admitted that he financed a group from New York which engaged in an anti-Jewish demonstration in front of the White House in July, 1958. He recalled that he had met Wallace Allen in Washington, D. C., after Allen had been arrested in Atlanta in July, 1958, for anti-Jewish picketing. [redacted] furnished \$500 towards the defense of Allen and others who were arrested at the same time. He explained that his major interest lies in revealing to the world his belief that the (u)

Honorable Dwight D. Eisenhower

first World War resulted from an international Jewish conspiracy. [redacted] denied that he believed in or advocated violence or any illegal activity and he also denied any knowledge of the dynamiting. (u)

We are continuing to conduct intensive investigation into the background of all logical suspects and we are cooperating with the local authorities in every possible way. (u)

With regard to the bombing of the Jewish Temple Anshai-Emeth, Peoria, Illinois, on October 14, 1958, our Laboratory has determined that the explosive charge was composed of black powder. It was not possible to determine from the remaining residue whether the powder was a commercial product or had been homemade. The ingredients of black powder can be obtained easily and black powder can be made by almost any high school boy. The fuse which is sixty-five inches in length would have burned in slightly less than four minutes. The fragments of the pipe which formed the container for the black powder bear distinct tool marks which may be valuable for future comparison with tools found in the possession of suspects. (u)

Additional suspects have been eliminated and we are continuing our efforts to trace the components of the bomb. (u)

On October 16, 1958, the Peoria police received two anonymous telephone calls stating that bombs had been placed in the Peoria Central High School and in the Trewyn High School. The premises of both schools were searched and no bombs were found. (u)

Sincerely yours,

The Attorney General

OCTOBER 12, 1958

This is to furnish you with developments which occurred in connection with the dynamiting of the Hebrew Benevolent Congregation, 1589 Peachtree Street, Atlanta, Georgia, on October 12, 1958.

B
George Michael Bright, [redacted]
Wallace Allen, Robert Bowling and [redacted] were indicted by a local grand jury on October 17, 1958. Under Georgia law, each was named as a principal and charged under Section 26-2302 of the Georgia Code with willful destruction by explosives of the Jewish Temple. [redacted] was apprehended early this morning. Since the offense for which they have been indicted is a capital one, the defendants are being held without bond.

Attorneys for the defendants have petitioned the court for a bond hearing and a hearing has been set for Wednesday, October 22, 1958.

We are continuing to conduct intensive investigation into the background of all logical suspects in this matter and we are cooperating with local authorities in every possible way.

With regard to the bombing of the Jewish Temple Anshai-Emeth, Peoria, Illinois, on October 14, 1958, we are continuing our efforts to trace the components of the bomb used in the explosion.

This information has also been furnished to the President.

Honorable Dwight D. Eisenhower

We are continuing to provide protection for Chief Justice Warren and Justice Frankfurter. There have been no incidents since the threatening telephone call which was received at our New York Office on October 17, 1958. (u)

In connection with the threatened bombing of the Arlington Unitarian Church, Arlington, Virginia, on October 19, 1958, it is noted that Rabbi Emmet A. Frank, Alexandria, Virginia, had been scheduled to talk in the church. On the evening of October 20, 1958, Rabbi Philip L. Rabinowitz, Keshet Israel Synagogue, Washington, D. C., received an anonymous telephone call from a man who said, "Please advise Rabbi Frank to leave Virginia without delay." (u)

Concerning the bombing of the Jewish Temple Anshai-Emeth, Peoria, Illinois, on October 14, 1958, additional suspects have been eliminated and we are continuing our investigation to trace the pipe, black powder, and fuse which were used in the bomb. (u)

On October 20, 1958, the Woodruff High School, Peoria, Illinois, received two anonymous telephone calls alleging that bombs had been placed in the school. The premises were searched but no evidence of a bomb was found. (u)

there with him until approximately 2:00 a.m., October 12, 1958, when they departed in her Nash Rambler station wagon. She maintains that Bright's car was left near the pharmacy on a parking lot and that Bright did not pick up his car until the evening of October 12, 1958.

Working in close cooperation with the FBI, the Atlanta Police Department, which has Bright in custody, has executed a search warrant at Bright's residence and found a handwritten note addressed to Rabbi Jacob M. Rothschild. The note in part and in substance related that in a few seconds the Rabbi would have the most terrifying experience of his life. It also stated that the Rabbi had been chosen to be a star performer and it went on to say, "We are going to have a question and answer period and you are going to star with your answers." This may have reference to a meeting held at the Temple Annex on October 9, 1958, when [redacted] Atlanta newspaper [redacted] [redacted] was present as a speaker and participated in a forum discussion. Our Laboratory will make an examination of this note.

The Special Agent in Charge of our Atlanta Office is continuing his on-the-scene direction of this case. Bright is being interviewed and an intensive investigation is being conducted to determine whether Bright or his automobile was involved in the bombing. Vigorous extensive investigation is also being conducted with regard to all others implicated by [redacted]

b6
b7C

With regard to the bombing of the Jewish Temple Anshai-Emeth, Peoria, Illinois, on October 14, 1958, it is noted that [redacted]

[redacted] was scheduled to appear on October 14, 1958, at Agudas-Achim Temple, Peoria. A Peoria radio station mentioned that [redacted] would speak on behalf of an Israeli bond drive and a few minutes after the broadcast the radio station received a telephone call protesting the promotion of Jewish activities over the radio station's facilities. Efforts are being made to identify the individual who called and the Peoria Police Department arranged to furnish protection to [redacted]

Honorable Dwight D. Eisenhower

The damage in Peoria was limited to twelve windowpanes since the explosion occurred in an outside stair well rather than in the interior of the Temple.

Juveniles in Peoria who are known to have made bombs in the past are being interviewed and investigation is being conducted at plumbing shops and other possible sources from which the materials used in the bomb could have been obtained. It has been ascertained that the pipe used for the bomb is an uncommon type which may have limited distribution. As soon as the physical evidence can be removed without jeopardizing the investigation, it will be rushed to the FBI Laboratory for an appropriate examination.

The Special Agent in Charge of our Springfield Office is remaining at Peoria, Illinois, to continue in actively assisting local authorities in every possible way.

SUBJECT: UNKNOWN SUBJECTS;
BOMBING OF JEWISH TEMPLE
1589 PEACHTREE ROAD, NORTHWEST
ATLANTA, GEORGIA, OCTOBER 12, 1958
INFORMATION CONCERNING
False Report re: Bombing of

SA Dallas Mobley, Atlanta, advised that at 1:45 a.m. the Atlanta Police Department had received a call that the Jewish Progress Club, Spring Street, Atlanta, had been bombed. Mobley stated that SAC Johnson was immediately proceeding to the scene and the Bureau would be kept informed of all developments.

10-16-58

Investigation developed that there had been no bombing at the Jewish Progress Club nor was there any indication that any of the other Jewish temples or groups in Atlanta had been bombed. It was learned that the call to the Police Department had been made by a night watchman, [redacted] to the Coca Cola Bottling Works. [redacted] called the Police Department because he had felt or heard what he believed to be an explosion. Due to his proximity to the Jewish Progress Club he immediately assumed it had been bombed and accordingly called the police. He had no definite information indicating a bombing.

Mobley further advised that inquiries had been received from the local newspapers regarding Associated Press news dispatch which indicated that the FBI expected a major break in the Atlanta bombing case today. Mobley stated that it had been determined that this was a "speculative story" released by Associated Press and Mobley stated there was no known basis for this dispatch. The SAC, Atlanta, is answering inquiries regarding this matter with no comment.

As a matter of interest a radio broadcast this morning had made similar comments regarding a break expected by the FBI today in Atlanta.

UNKNOWN SUBJECTS; REPORTED BOMBING
OF JEHOVAH WITNESSES MEETING, BOSTON,
OCTOBER 15, 1958.

Morning radio broadcasts reflect home of Jehovah Witnesses in Boston was bombed with extensive property damage in the neighborhood. It was determined from the Boston Office that the above release is a highly colorful press release and the facts as obtained from the Boston Police Department reflect no property damage and possibly childish prank with railway torpedoes. SAC, Boston, has been instructed not to enter this investigation and to make no press comment, at this time.

We are relying on the Police Department's report which indicates no damage. The additional facts being obtained.

My dear Mr. President:

Every effort is being made to substantiate the reports of the informant who has been in contact with George Michael Bright. Partial verification has been accomplished lending some credence to the informant's statements. (u)

Our investigation is continuing in a most penetrating manner and the scope of inquiry has now broadened to such an extent that twenty-five of our field divisions have become active in this case. (u)

The Atlanta area is still being harassed by anonymous hoax telephone calls. In the past few days there have been at least six such calls alleging that various educational institutions would be bombed. Local authorities state that they will deal harshly with the perpetrators if they can be identified. (u)

Chief Justice Warren and Justice Frankfurter remain under protective observation, although nothing of significance has occurred since the threatening telephone call on October 17, 1958. (u)

WALLACE HUGH ALLEN, ET AL, BOMBING OF THE TEMPLE, ONE FIVE EIGHT NINE PEACHTREE ROAD, N. W., ATLANTA, GA., OCTOBER TWELVE LAST, INFO CONCERNING. DAILY SUMMARY. CAPTAIN

ATLANTA PD, THIS MORNING ADVISED ASSISTANT SOLICITOR

HAD INDICATED HE WAS APPREHENSIVE THAT AT BOND HEARING FOR SUBJECTS SCHEDULED FOR WEDNESDAY, OCTOBER TWENTY TWO NEXT DEFENSE ATTORNEYS MIGHT OBTAIN SUBPOENAS REQUIRING APPEARANCE AND TESTIMONY OF CAPTAIN OTHER ATLANTA

PD PERSONNEL AND OFFICIALS, AND POSSIBLY SAC. SUCH ACTION ON THE PART OF DEFENSE ATTORNEYS WOULD BE EFFORT TO TEST JUSTIFICATION OF STATE IN DENYING BOND TO SUBJECTS INVOLVED. INDICATED TO CAPTAIN IF DEFENSE ATTORNEYS WERE ABLE TO REQUIRE SUCH TESTIMONY BEFORE JUDGE VIRLYN

MOORE, IT WOULD BE EXTREMELY DETRIMENTAL TO STATE CASE AND THAT HE FELT THIS SHOULD BE AVOIDED AT ALL COSTS. CAPTAIN

WAS ADVISED THAT WE OF COURSE COULD NOT MAKE ANY 27 1958 RECOMMENDATIONS TO HIM OR TO ASSISTANT SOLICITOR IN

THIS MATTER, BUT THAT IT APPEARED NOTHING WHAT SO EVER COULD

On 10/15/58, [redacted] telephonically contacted the Newport News Resident Agency stating that he had just read an Atlanta dateline AP dispatch to the effect that the Atlanta Police had arrested one WALLACE H. ALLEN and booked him on suspicion of bombing and that ALLEN was one of two men who helped plot the Atlanta bombing last May. The article also related that ALLEN was a cripple and that detectives said they found penciled drawings of a Nazi swastika and anti-Semitic literature in ALLEN's home.

[redacted] stated that he has been acquainted with a WALLACE H. ALLEN and that from the description he felt that it was probably the same individual. He said that ALLEN had visited his, [redacted] home in the past on three or four occasions and that he had never been to ALLEN's home. He stated that in reference to the anti-Semitic literature found in ALLEN's home, that it was probably some of his [redacted] and that he could back up his statement's in court if necessary. He further stated that he has also written letters to ALLEN in the past and that as far as he knew, ALLEN was alright; that he was not ashamed of his knowing ALLEN, and that he did not think that ALLEN was the kind of "lunatic" that would do such a thing.

[redacted] stated that his purpose in calling was to state that he would be available 24 hours a day should anyone want his co-operation in this matter. He had no other information to offer.

SUBJECT: BOMBING OF JEWISH TEMPLE
1589 PEACHTREE STREET, N.W.
ATLANTA, GEORGIA
OCTOBER 12, 1958

ASAC [] called to report that about one half hour ago [] Atlanta, Ga. telephoned the Atlanta Police Department saying he had found 20 sticks of dynamite in an open area on the north side of Atlanta. [] who resides in the area had stumbled across the dynamite which was hidden under an old broadcloth shirt. Our liaison Agent who was at the police department at the time accompanied police officers to an open area near Beauford Highway and Shallowford Road in Atlanta where the 20 sticks of dynamite were located. The dynamite is Atlas 60% gelatin. No fuse was attached.

[] said there may be a remote significance in the location of the dynamite which is approximately one half mile from Chamblee High School which school was attended by subject [] some five to eight years ago. During his attendance at Chamblee High School, [] lived approximately one and one half miles from the area where the dynamite was located.

[] pointed out that Atlas dynamite with 60% gelatin is the same type which has been found within the past year in at least two other places in the southeastern states under circumstances indicating attempts to bomb Jewish synagogues. They are as follows:

REC- 65 62-105023-227
 30 sticks of Atlas Dynamite, 60 % gelatin, found 2-8-58,
 on the steps of the Jewish Synagogue, "Gastonia," South
 Carolina, in a lady's handbag.

OCT 27 1958
 54 sticks of Atlas Dynamite, 60% gelatin, found 4-28-58,
 at Temple Bethel Synagogue, South Birmingham,
 Alabama, in a blue canvas handbag.

Memorandum to the Director

The bomb officer of the Atlanta Police Department has reported that the dynamite appears to be disintegrating and leaking nitroglycerin, however, according to the officer, in its present state it can be examined for latent fingerprints.

[] advised that a thorough crime scene search has been made. One tire print and one heel print have been located at the scene neither of which contain very much detail. He said, however, these have been photographed and plaster casts lifted. [] said the broadcloth shirt is being checked for laundry marks or other identifying marks.

ACTION:

Arrangements have been made for [] Latent Fingerprint Section, Identification Division, to go to Atlanta, leaving Washington 2:00 a.m., October 22, 1958, via Delta Air Lines Flight 75 and arriving Atlanta, Georgia, 3:25 a.m., October 22, 1958. [] will examine the dynamite for latent fingerprints.

In connection with the cloth found around the sticks of dynamite in a wooded area several miles outside of Atlanta, I have just spoken with SA [redacted] and the official in charge of the Atlanta Office concerning this item. SA [redacted] was instructed to look over these pieces of cloth very carefully after which he was to extract the cloth with alcohol and submit the dried pieces of cloth to the Laboratory for examination. He was cautioned to avoid any contact of the nitroglycerin with the skin and to burn the alcohol solution of nitroglycerin in an open field. He was further instructed to send the material to the Laboratory, by airmail special delivery. No latent prints were developed on the dynamite wrappers.

ReButel 10/23/58.

During interview with [redacted] in BA on 10/18/58, he stated that he spends a great deal of his time at the Library of Congress, Washington, D. C. doing research. He estimates he was in the Library of Congress on 10/11/58 from 1:30 P.M. to 6:00 P.M. He advises that a [redacted] at the Library of Congress, probably could attest to his presence there at the pertinent time.

WFO requested to contact [redacted] and verify [redacted] presence at Library of Congress on afternoon of 10/11/58, and also through [redacted] obtain names and contact other employees of Library of Congress, who, in addition to [redacted] might be able to furnish background information on [redacted] including latter's associates. Should investigation with [redacted] and/or other members of the Library of Congress develop additional associates of [redacted] in the Washington, D. the number of districts, names of any members, or how far the WCC was prepared to go in order to restrict or stop integration. [] stated that the Board of Directors, names not revealed, of the WCC agreed not to give out any membership, number, or names. He stated that he would not name any officers of the council, but believes the council is now inactive. He stated he has not been so connected with this council in the past eight or nine months due to work.

[] stated that the meetings of the WCC were irregular and informal and that when JOHN KASPER became involved in legal entanglements [] attempted to call him, but was unable to do so. He stated when he learned of KASPER's situation he went to Clinton, Tennessee, and saw KASPER; however, he had no money at that time to aid him. [] advised that he attempted to secure aid for KASPER through contributions from the WCC; however, he was unsuccessful and most of the money given to KASPER for assistance came from him and []

[] advised that he did not take part in the picketing in Washington, D. C., however, he stated he did arrange for the picketing of WCC through the Metropolitan Police Department.

[] stated that further questions pertaining to the WCC he did not intend to answer.

[] stated that the present Administration would never understand the aims and principles of the WCC, and as an example he pointed out that EISENHOWER was using the FBI as a national police force.

[] stated that the only thing he knows concerning the bombing in Clinton, Tennessee, was what he read in the newspaper. He stated that the bombing took place about 4:00 A.M. and to the best of his knowledge he was at work in Washington, D. C., at about 8:30 or 9:00 A.M. that morning,

ST
WALLACE HUGH ALLEN, ET AL.;
BOMBING OF JEWISH TEMPLE,
1589 PEACHTREE STREET,
ATLANTA, GEORGIA,
OCTOBER 12, 1958
INFORMATION CONCERNING

Every effort is being made to substantiate the reports of the informant who has been in contact with George Michael Bright. Partial verification has been accomplished lending some credence to the informant's statements.

Our investigation is continuing in a most penetrating manner and the scope of inquiry has now broadened to such an extent that twenty-five of our field divisions have become active in this case.

The Atlanta area is still being harassed by anonymous hoax telephone calls. In the past few days there have been at least six such calls alleging that various educational institutions would be bombed. Local authorities state that they will deal harshly with the perpetrators if they can be identified.

Chief Justice Warren and Justice Frankfurter remain under protective observation, although nothing of significance has occurred since the threatening telephone call on October 17, 1958.

With regard to the bombing of the Jewish Temple Anshai-Emeth at Peoria, Illinois, on October 14, 1958, we have succeeded in identifying the manufacturer of the pipe fittings which were used to cap the bomb. Pertinent sales of such caps are being traced and other extensive investigation is being conducted.

This information has also been furnished to the President.

that the National States Rights Party was "going around planting bombings" is not convicted of perjury, then he will have to reckon with the Citizens National Law Enforcement Commission. The letter further states that a group from Chicago will come to Atlanta to conduct an investigation prior to the trial.

In connection with the bombing of the Jewish Temple Anshai-Emeth in Peoria, Illinois, two sixteen-year-old students of Peoria Central High School have admitted placing the shampoo jar bomb which was found on a stairway in the school on October 23, 1958. They have explained their actions by stating that they wanted to be released from school so that they could meet their girl friends.

The boys state that the bomb was made by taking powder from shotgun shells and mixing it with shot. This was then placed in the shampoo jar and the flashlight batteries and condenser were taped to the top. They deny that there was any attempt to make a bomb which would actually detonate and they say that they prepared the note which was found with the bomb after they decided that the shampoo jar was too innocent in appearance.

The boys have also admitted making some of the recent anonymous hoax telephone calls to schools in Peoria. The Peoria Sheriff's Office is holding them together with their two girl friends on charges of burglary. They were questioned concerning the bombings after numerous newspaper clippings concerning bomb scares were found hidden in the brassiere of one of the girls. All four of the juveniles deny any knowledge of the temple bombing.

This information has also been furnished to the President.

At 3 p.m. this afternoon, Mr. Henry Roemer McPhee of the White House called and stated that the White House had received a communication from the Mayor of Atlanta, Georgia today concerning the bombing of the synagogue in Atlanta, Georgia last Sunday. (Our records reveal that the present Mayor of Atlanta is William B. Hartsfield. The mayor was offering his thanks and appreciation to the President for the action which the President took in bringing the FBI into the investigation of the Atlanta problem. He commented that this appeared to be highly proper as "we had already indicated to the local FBI representatives that they should join with us in this case, particularly since the dynamiting is evidently the work of an interstate organization or at least persons travelling interstate."

Mr. McPhee stated the White House is drafting a reply to this letter and that they desire a statement from the Bureau that can be used to show the extent of the Bureau's participation. He stated that an early reply (this afternoon) would be appreciated. McPhee stated that he did not want to rely on what the press had been saying about FBI cooperation and thus the reason for making a direct request of us. Mr. McPhee stated that they would want to state in their reply to the mayor how the Bureau is cooperating and to what extent.

As you know, we are extending all possible cooperation to local law enforcement agencies. We are working in cooperation with the local and state police in the handling of this bombing. We have also extended all possible assistance from our Identification Division and Laboratory. Our Agents are working on the scene with local authorities at all levels, including handling out of state leads which are beyond the reach of local authorities and are taking positive investigative action and remaining alert to any matters showing indicated violation of Federal statutes.

The Director has informed the President of the action we are taking and the press has generally carried the extent of our cooperation as outlined above. There is attached a press release dated October 5, 1958,

as it relates to the Clinton, Tennessee bombing, showing that the Agent in Charge is taking charge of all investigative efforts that may come within the investigative jurisdiction of the FBI and that we have extended to local authorities full facilities of our Laboratory and Identification Divisions as well as extending our cooperation to local authorities for investigation of out-of-state leads. In addition to this, of course, we are extending all possible assistance in every instance as it relates to the Atlanta, Georgia bombing. *

ACTION:

If the director approves, we will advise Mr. McPhee that we are extending all possible cooperation to local law enforcement agencies; we are working in cooperation with the local and state police in handling investigative matters regarding this bombing; we have also extended all possible assistance from our Identification Division and Laboratory; and our Agents are working on the scene with local authorities at all levels, including handling out of state leads which are beyond the reach of local authorities and are taking positive investigative action where necessary and remaining alert to any matters showing indications of violations of Federal statutes. In view of the fact that Mr. James Hagerty of the White House is well aware of the Bureau's position in this matter, we will suggest to Mr. McPhee that he contact Mr. Hagerty for any further details.
